PROFESSIONAL PROFILE

Java Full Stack Developer with experience building REST APIs with Spring Boot, data persistence with JPA/Hibernate, and responsive interfaces using HTML, CSS, and Bootstrap. Trained in agile Scrum environments with rotating roles as Product Owner, Scrum Master, and developer. Background in user requirements management and functional software testing, bringing a quality-oriented mindset to the development cycle. Focused on building scalable software and seeking a professional environment to continue growing toward a senior profile.

TECHNICAL SKILLS

Java | Spring Boot | Spring Security | JPA/Hibernate | REST APIs | JUnit | MySQL | HTML | CSS | JavaScript | Bootstrap | Git | Jira | Claude

SOFT SKILLS

Agile team leadership | Performance under pressure | Analytical thinking | Quality-oriented | Autonomous learning

ACADEMIC PROJECTS

Hackathon Landing Page | Generation Mexico (March 2026)

- Developed a landing page for an exclusive sports club featuring service sections, memberships, and a registration form with CSS animations, within an 8-hour time limit.
- Led the frontend under Scrum methodology, coordinating a team of 8 people, making design decisions, and distributing tasks to meet the deadline.
- Built the entire project using HTML, CSS, and Vanilla JavaScript, with no dependency on external frameworks.
- Repository available on [GitHub](#).

Hackathon Contact Directory | Generation Mexico (April 2026)

- Developed a contact management system with full CRUD operations, custom exception-based data validation, and efficient storage using HashMap, within a 5-hour time limit.
- Implemented contact sorting and search using Java's Stream API and Comparator.
- Applied custom exception handling with regex-based validations for name, last name, and phone number.
- Wrote unit tests with JUnit covering add, duplicate, delete, search, and sort cases.
- Coordinated the backend under Scrum methodology with a team of 7 people, meeting the delivery deadline.
- Repository available on [GitHub](#).

WORK EXPERIENCE

HERA Perfumes & Jewelry Integrative Project | Generation Mexico (February 2026 - May 2026)

- Developed a fullstack e-commerce platform in a multidisciplinary team of 9 members under Scrum methodology.
- Built a REST API with Spring Boot and Spring Security, managing data persistence with JPA/Hibernate on MySQL and handling dependencies with Gradle - Groovy.
- Developed responsive frontend interfaces using HTML, CSS, and Bootstrap.
- Participated on a rotating basis as Product Owner, Scrum Master, and development team member, managing backlogs and sprint planning with Jira.
- Project with architecture prepared for deployment on AWS.

Computerized Systems Validation Chemist | Liferpal MD (July 2025 - January 2026)

- Elaborated and managed user requirements, verifying compliance through functional testing and structured technical documentation.
- Executed functional tests on software systems, validating system behavior against defined specifications and generating documentary evidence of results.
- Managed change control and technical documentation under regulatory standards (GAMP 5), developing rigor in traceability and version management applicable to software development environments.

EDUCATION

- **Java Full Stack Developer Bootcamp** | Generation Mexico (February 2026 - May 2026)
- **Bachelor's Degree in Chemistry** | **University Center of Exact Sciences and Engineering, University of Guadalajara** (2016 - 2024)

COURSES & CERTIFICATIONS

- **Introduction to Java** | Accenture, Learning to Earning (2026)
- **SCRUM for Professionals** | Platzi (2026)
- **ChatGPT Course** | Platzi (2026)
- **Git Fundamentals** | Git Kraken (2026)

LANGUAGES

- **Spanish:** Native
- **English:** B2 (advanced technical reading and listening comprehension — working toward C1)
